

## 5D - Motion Cinema *premium2006 mobile*

## FEATURES:

### **Motion system:**

6 axis 24seat motion-system with pitch, roll, yaw, sway, surge and heave movements simulates realistic motion in every film.

### **Visual system:**

6 special high-resolution 3D-projectors and the polarized 3D-glasses generate a sophisticated visual experience for all users on a giant 180° Projection Screen.

### **Sound system:**

The cinema dolby surrounding sound system, integrated in the Pinkau 5D simulator, brings the users in the middle of another world.

### **5D effect system:**

5D effects like water, wind, bubbles, snow and lasers and even real interaction generate an incredible realistic feeling. The combination of motion, 3D – film, surround sound and 5D effects is the ultimate way to entertain your customers.

### **Transport System**

To transport the whole system is to disassemble in many parts and so easy to move.

### **Space & Power:**

Power Supply: 240V/16A

Required Space: 8m x 5m x3m
